

I am a regular listener to K-LOVE on station 106.3 FM in Texas. Even though this is a national station it daily pertains to my personal life and that of my family. This station is one which is encouraging and uplifting to my day, plus I receive the news that I need. This station can be enjoyed by my whole family, even the children, without worrying about inappropriate news or music. It is the station we listen to the majority of the time both at home and in new car. Please continue to allow K-LOVE to broadcast as a national service! Thank you.
